DO YOUR THING!

Superintendent's Message

Each year at this time high school students and particularly graduating seniors begin to ponder the many unknowns that lie in the future. Soon after graduation, most young people look back on their school years with only slight concern. It is not long before high school graduates become college graduates or enter the working world, marry, have families, and now college or job preparation years seem less important, but as the family grows all of a sudden that first grade and elementary school becomes very important all over again.

As this cycle continues the school must play a major role in perpetuating and improving society or else it has failed. The dedication of teachers that the school not fail, but succeed, is what makes teaching such an exciting career and why each teacher in this school takes such pride in their contribution to each child as they come and go.

It is the sincere wish of the total school and annual staff that this book serves as a quality reminder of way back when . . .

Three eighth grade girls were either cheerleaders, or twirlers this year. Kathy Frizzell was a cheerleader for Jr. High, while Mary Powell and Judy Brock were Jr. High twirlers. The eighth grade students all supported the High School football games, and especially the Eagles, of which they will become a part.

As Mrs. Foster handed out the report cards at the end of the year, some of the students are pleased, while others seemed to be a little anxious about their grades.
